Enclosed is some of the information that was submitted for this undergrounding project near your project location. It required the Complex Utility Agreement to be signed, before the any work would be formally reviewed and that effort took a year.

[REDACTED] were also involved and could provide additional insight of how to proceed with a project like this, which is very similar and in the same area.

I have also included Caltrans Permit Plan requirements, pages 2 & 3 are for Utility installations.
