2/25/2021 2:50:07 PM - ██████████

Updated Suborder table to reflect footage from the worksheet description is uploaded in SAP.

1/29/2021 6:04:57 PM - ██████████

Project Recommendation approved by Wildfire Governance Committee on 01292021. Hybrid 1 Hardening option selected with an expected timeline of 2022+ for construction. Selection based on high PSPS impacts, PSS preference for UG Ingress and Egress mitigation, consistent construction with nearby improvements and an RSE within 100% of the highest RSE. OK to upload documents to SAP and proceed to estimating.

1/19/2021 12:35:45 PM - ██████████

Project scope is based on desktop review with project team who attended scoping meeting on 01/05/21. Project segments are per ADE further review to facilitate project design
