 Agency Participants: [REDACTED]  
 FEP Participants: [REDACTED]

08:00 - 13:00 System Hardening

- Location: 2485 Notre Dame Blvd 750, Chico, CA 95928  
<https://goo.gl/maps/35kmFomzCpfqbNvY7>
- Meet at the parking lot for Starbucks Coffee
- Comments: There are 3 projects on the Bucks Creek circuit that cover 4 miles which have a relatively high-risk score in the updated risk model. These projects have agency dependencies with Railroad, CalTrans, Forest Service, CalFire and PG&E Hydro. These projects are also 90% underground which means construction will start in 2022. The projects are southeast of Paradise.

| Circuit          | Project / Device                    | 2019 Risk Rank | 2021 Risk Rank | 2021 POI Rank | 2021 Consequence Rank |
|------------------|-------------------------------------|----------------|----------------|---------------|-----------------------|
| Bucks Creek 1101 | 35217268<br>35224712<br>35224173/CB | 1,365          | 11             | 181           | 200                   |

POI: Probability of ignition
