Oh yeah. It's right down the canyon from us. Any idea if there's any air assets assigned to it yet? I was calling but didn't reach anyone

8:26 AM

They are working on getting ships down, TFR will be going up this AM. Told them you monitor 123.025 and their ships victor frequency is 124.775

8:27 AM

Thanks. Let me know if they need me to stay on the ground.

8:31 AM

Still planning on ending at 11? Let me call them to see if that is ok, they have you on AFF

8:35 AM

They prefer you stay out of the area.

3 lakes is 10 miles from those coordinates. We're going to launch for that, but won't be doing Bucks Portal or Penstock 2

9:02 AM

Will have [redacted] and [redacted] onboard for 3 Lakes

9:09 AM

Cancel that. The lead down here threw a fit about it and said "cancel this helicopter shit. I'm done with them. These guys are driving up."

9:11 AM

Heading to Chico to cover hydro per

9:11 AM

Omg wow. Okay, sorry

9:12 AM

No problem. Feel bad these guys have to go hiking even longer now!

9:14 AM

Yeah just sucks all around been a morning lol

9:57 AM

Yeah it was pretty close!
