Starting text group anticipating a request to de energize T line. Meeting with IC in 10. Will text when request is confirmed and follow up with call to ██████████

11:08 AM

Copy on Signal message re Caribou Table 230kV

11:09 AM

Unread

11:09 AM

So when you say lots confirming you mean phrase to phase and it will remain out?

11:11 AM

It relayed and did not test

11:11 AM

✅

11:11 AM

They will not re-energize

11:17 AM

They are working on islanding right now

11:18 AM

✅ how about the 230 assets in the bottom of the canyon ████? What's their status?

11:18 AM

Still energized

11:20 AM

✅ request may come soon to de-energize. I gave the GCC ████ a heads up and we'll have you make that call to GCC when the time comes if that works, I'll be on the 11:30 AM GCC Ops call

11:25 AM

We're going to leave the two 230kv lines in the canyon energized for now. Leave Caribou Table off. ████████ is POC for next two hours

11:27 AM

Copy

11:28 AM

✅ understood per IC leave the 2 230kV lines in the canyon energized
