

Is the PSS notifying HAWC part of the process? If that notification was made, this one would have met the criteria. Somehow we need to develop a campaign to get the word out to notify us. Maybe [REDACTED] [REDACTED] can get a story in Page One that describes the importance of the notification.

Absolutely! If we had the information sooner the team could have collected more and started the process.

I'll reach out to [REDACTED]

I will also be discussing the part that we have SIPT and PSS at the ICP and no one call the HAWC....we have a standing call with these teams every two
