Per PSS [REDACTED] Dixie Fire is now estimated at 100+ acres burning both moderately upslope and downcanyon towards Canyon Creek Road and our T-line assets. North Valley D & T-line engaged as well as SIPT Supervisor Fowler looking at pre-treatment opportunities near the heel of the fire on the Bucks Creek 1101 Circuit. More intel will be made available after CAL FIRE's 0800 hour briefing.

At 1335, Dixie Air Attack states the fire is approximately 1100 acres in size, pushing in a north/northeasterly direction with spotting occurring up to 1/4 mile ahead of the main fire. The fire has progressed west and north underneath the Caribou-Table MTN 230kV asset up on top of the ridge. CAL FIRE states the fire has spotted over the U Line Road to the north which is where firefighters were hoping to slow the northern progression of the fire. The fire will continue to burn away from the community of Concow, and PSS [REDACTED] is working with Dixie IG on an updated perimeter assessment. [REDACTED] has sent out an updated PG&E asset map showing the fire's [REDACTED]

Updates to SIPT efforts on pole pretreatment on the Dixie Fire. E-211 & E-213 are currently pre-treating the Bucks Creek 1101 circuit from Rock Creek east along HWY 70 for approximately 30 structures. Then, in an anticipation of the downslope/downcanyon winds that may occur this evening into the early morning hours, SIPT will focus pretreatment on the Big Bend 1101 Circuit from Flea MTN south west towards the community of Concow.
