Thank you [REDACTED] for the update.

Flea Mtn is a critical site for all communications in the Feather River Power Gen sites.

[REDACTED]
Thanks for reaching out.

The HAWC monitored the Dixie incident throughout the night but information was very limited. The latest information we have is: Firefighters we're unsuccessful in maintaining containment and the fire is now reported as 60 acres. We have Public Safety Specialists monitoring and engaged with the responding resources.

Please don't hesitate to call the HAWC if you have questions or concerns.
