Think before clicking links or opening attachments.**** Thanks I'll make sure everyone gets this. From: Sent: Wednesday, July 14, 2021 3:04 PM Subject: RE: Power Outages in Feather River Canyon A little bit of new info here: The safety of our customers and communities is PG&E primary responsibility. PG&E continues the monitor the Dixie Fire in Butte and Plumas counties, and we have crews on-site to support first-responders. Late this morning several transmission lines lost power from the Dixie Fire's smoke. Approximately 10,000 PGE customers in Plumas County lost power. We restored power to all customers by 2 p.m. The fire is near the footprint of the Camp Fire. From Sent: Wednesday, July 14, 2021 2:09 PM Subject: RE: Power Outages in Feather River Canyon That's OK. Probably on our web end. From: Sent: Wednesday, July 14, 2021 2:08 PM To: Subject: RE: Power Outages in Feather River Canyon *****CAUTION: This email was sent from an EXTERNAL source. Think before clicking links or opening attachments.**** Now it works... Before it was not showing me any of that. Sorry about that. From: **Sent:** Wednesday, July 14, 2021 1:57 PM Subject: RE: Power Outages in Feather River Canyon We are down to about 1,600 without power in Plumas County. Does this not work: www.pge.com/outage? There's a map you can view on it.

Yes. More than 10,000 customers. More to follow:

The safety of our customers and communities is PG&E primary responsibility. PG&E continues the monitor the Dixie Fire, and we have crews on-site to support first-responders. Firefighters requested a distribution line be de-energized last night for firefighter safety. Several transmission lines are now de-energized. As of 11:30 a.m., approximately 10,000 PGE customers in Plumas County are without power. We are investigating restoration options.

Hev

I hear that due to the Dixie Power some PG&E customers are without power? Is that true? If so how many customers are impacted?

Thank you,
