Thanks for that.

Makes sense... the county line is super close.

Cheers,

You are right about Butte County. Thanks for catching that. Later on it did cross into Plumas.

[REDACTED]

A bit of an update:

- The safety of our customers and communities is PG&E primary responsibility.
- PG&E continues to monitor the Dixie Fire in Butte and Plumas counties, and we have crews on-site to support first-responders.
- Late this morning several transmission lines lost power from the Dixie Fire's smoke. Approximately 10,000 PGE customers in Plumas County lost power. We restored power to all customers by 2 p.m.
- The fire is near the footprint of the Camp Fire.

Thanks [REDACTED]

Just FYI, your note says Plumas and I think you meant Butte.

Can you keep me posted on any updates?

Thank you,

Hi, [REDACTED]

Got your message. Here's what I have so far.

- The safety of our customers and communities is PG&E primary responsibility.
- PG&E continues to monitor the Dixie Fire in Plumas County, and we have crews on-site to support first-responders.
- Several transmission lines are now de-energized. As of 11:30 a.m., approximately 10,000 PGE customers in Plumas County are without power. We are investigating restoration options.
- The fire is near the footprint of the Camp Fire.
