This is the new daily report that the HAWC will be putting out. I'll try to get some of us on the disto list.

██████████ reported out on the WF DOR. Nearest weather station shows currents winds at 17 mph. Noted Cal Fire reported it broke containment overnight and is now at 500 acres. ██████████ said, "I'm not going to speculate on the cause, and I'd suggest no one else speculate." Nonetheless, ██████████ reported "strong indications" that it was us, and said "the community will be very freaked."
