7/14/2021 11:07:24 AM FW: Report #1 (Initial) - Dixie, Oroville, Butte County

Team,

We are tracking an additional fire which includes evacuations. The HAWC provided its update in the link below. HR is waiting for the zip code analysis in order to conduct its impacted personnel report. HR will engage the North Valley OEC leadership when its activated.

will the same finance order code used for the River Fire be used for employee impacts for the Dixie Fire? Please let me know.

HR Emergency Management Specialist, Principal

From: Sent: Wednesday, July 14, 2021 10:18 AM To: Subject: Report #1 (Initial) - Dixie, Oroville, Butte County

Incident Report Number: 1 (Initial) Date: 07/14/21 Time: 1017 Incident Type: Vegetation Incident Name: Dixie Lead Agency: USDA Forest Service/CAPNF - Plumas National Forest / CAL FIRE

Incident Location: HWY 70 39.874,-121.378

City/Community: Oroville County: Butte PG&E Division: North Valley PSS Assigned:

FIA: 248 Tier: Tier 3 Acreage: 1,200 Containment %: 0 Outages: Yes Max Customers Impacted: 4 Current Customers Impacted: 3

Current Summary:

The Dixie Fire is approximately 1,200 acres, 0% contained and burning in steep and inaccessible terrain north of Highway 70 and west of Merlin, underneath PG&E's Distribution and Transmission line assets. The fire has come out of the Feather River Canyon bottom and has reached the ridgetop near the Caribou-Table MTN – 230kV lines. The fire is currently burning upslope, upcanyon to the east, northeast and under normal diurnal summerime burning conditions. CAL FIRE is attempting to get ground resources to the ridgetop along the 300 U Line road in an attempt to stop the forward rate of spread using dozers and fixed wing aircraft. This fire is very dynamic and lag time for getting ground resources will be the challenge for firefighters.

Last night at 2030 hours, CAL FIRE requested PG&E to deenergize the Bucks Creek 1101 circuit from SSD 941, affecting three customers for firefighter safety. T-line Supervisor states is engaged on-scene working with PSS 1000 circuit from SSD 941, affecting three customers for firefighter safety. T-line Supervisor states is engaged on-scene working with PSS 1000 circuit from SSD 941, affecting three customers for firefighter safety.
