**Subject:** RE: [Sacramento Bee] -- Dixie Fire lines

Hi, [REDACTED]

The safety of our customers and communities is PG&E primary responsibility. Several transmission lines are now de-energized. As of 11:30 a.m., approximately 10,000 PGE customers in Plumas County are without power. We are investigating restoration options. PG&E continues to monitor the Dixie Fire, and we have crews on-site to support first-responders.

Good morning,

This is [REDACTED] with the Sacramento Bee. I just tried giving you a call because I am looking to confirm reports that PG&E has de-energized lines in the area of the Dixie Fire. If you could let me know as soon as possible, I would so appreciate it.

Best,  
[REDACTED]
