Maybe it's the semantics of "de-energized." It feels like a purposeful act. In this case, the lines reacted to smoke and lose power.

[REDACTED] pls look for an update. I spoke to the editor to correct the reason why the transmission lines were de-energized. Might take a half hour or so.

Thx,  
[REDACTED]

Fyi, passing along below coverage for awareness and includes [REDACTED] details.

### **PG&E Addresses Power Outage Due to Dixie Fire**

Plumas News, July 14, 2021

<https://www.plumasnews.com/pge-addresses-power-outage-due-to-dixie-fire/>

[REDACTED] **spokesman for PG&E**, said that the crews de-energized transmission lines this morning at the request of firefighters. As of 11:30 a.m. approximately 10,000 PGE customers in Plumas County were without power. PSREC was also affected, but has switched to alternate power and restored electricity to its South customers.

**PG&E** continues to monitor the Dixie Fire, with crews on-site to support first-responders. **PG&E** is investigating options to restore power. The last update mentioned 2:15.
