**Subject:** RE: [PGE] no recent fire detections in fire detection page

Thanks [REDACTED] This may be a data transfer issue on our side. Can you confirm?

Weather admins, can you investigate the fire detection API?

Hi Lovelytics and PG&E team,

I am tracking a recent incident (dixie fire) and do not see recent detects in the public page:  
[https://pgefdp.lovelytics.info/pge\\_fire\\_app/#](https://pgefdp.lovelytics.info/pge_fire_app/#). Last I see are from 12:26 pm. Our internal page has the most recent detections.

Please check this out. I'm not sure if this is a data transfer issue from PG&E to lovelytics or a ingest/plotting issue.

Thanks
