UPDATE: Most power restored to those affected due to Dixie Fire
July 14, 2021

UPDATE 2:09 p.m.: PG&E has restored all about 1,550 of the more than 10,000 customers who lost power between 11 and 11:30 am.

Also PG&E did not de-energize the transmission line today at the request of firefighters. The transmission lines went out due to the fire. Last night, PG&E did de-energize a distribution line at firefighter's request, but that wasn't transmission lines and only three customers are out on that distribution line

As of 11:30 a.m. approximately 10,000 PGE customers in Plumas County were without power. PSREC was also affected, but has switched to alternate power and restored electricity to its South customers.

PG&E continues to monitor the Dixie Fire, with crews on-site to support first-responders. PG&E is investigating options to restore power. The last update mentioned 2:15.

[REDACTED] pls look for an update. I spoke to the editor to correct the reason why the transmission lines were de-energized. Might take a half hour or so.

Thx,
[REDACTED]

Fyi, passing along below coverage for awareness and includes P.Moreno details.

PG&E Addresses Power Outage Due to Dixie Fire

Plumas News, July 14, 2021

<https://www.plumasnews.com/pge-addresses-power-outage-due-to-dixie-fire/>

[REDACTED] **spokesman for PG&E**, said that the crews de-energized transmission lines this morning at the request of firefighters. As of 11:30 a.m. approximately 10,000 PGE customers in Plumas County were without power. PSREC was also affected, but has switched to alternate power and restored electricity to its South customers.

PG&E continues to monitor the Dixie Fire, with crews on-site to support first-responders. **PG&E** is investigating options to restore power. The last update mentioned 2:15.
