All,

Just finished a scan but haven't been able to put together a recap. Most posts are general in nature (fire, acres, impact) – just saw this one.

This fire started in your district, the same place as the camp fire. The rumor is **pg&e** started it again. While you've been accepting their donations you could have been holding them accountable. And now you use fire to pander and play political games. Shame on you.

While Gavin Newsom has spent the day playing cash giveaway politics, I've been monitoring fire, after fire, after fire in my District. To say that I'm upset would be an understatement.
