I am getting calls from (MQ) on the fire in the Feather River Canyon - they staff the HAWC is not aware. Confirming you posed E213 info in SIPT Comm log?

6:10 PM

Please call again

7:33 PM

FYI E213 is committed to the Dixie fire for the evening - fire is right next to our Tline - CALFIRE Type 3 engines are too large to make access so CALFIRE has tasked E213 to make access to the fire for perimeter control

7:35 PM

Copy, I expect long commitment

8:15 PM

CALFIRE made access so they have released E213, which is RTQ, ETA home 2100
