Update on the Dixie Fire on HWY 70 east of Cresta Dam, fire still holding with retardant at just under 2 acres. Firefighters are still attempting to make ground access. Per [REDACTED] a Tman is in route from Chico to open SSD 941 on the Bucks Creek 1101 for firefighter safety. There is little to no comms with ground personnel so information is limited.

8:02 PM

8:03 PM

All PG&E D & T line resources are working their way off the Dixie incident and returning. Final report.
