Thanks Colonel Edgar. I can give you a call tomorrow to connect briefly if of value – let me know.

All my best,  
Elizabeth.

**Subject:** Theranos Update to Gen Mattis

Elizabeth,

I've gotta update the boss on Wednesday on our effort to get the analyzers into theater. Specifically, I was interested in talking w/ you on where we are in regard to Theranos status w/ the FDA and the IM/IT questions that LtCol Silverthorne has been asking so that we can get info assurance stuff worked out. He also asked if we could get an analyzer here at the HQ so the computer geeks could test it on the system locally before putting that burden on the Afghanistan net to test. Is there a time tomorrow we can have a telcon?

-Erin
