one tiny drop changes everything.

At Theranos, we're working to shape the future of lab testing. Now, for the first time, our high-complexity CLIA-certified laboratory can perform your tests quickly and accurately on samples as small as a single drop.

The lab test, reinvented.

No big needles. No endless waiting. We've built a whole new approach to getting you answers.

Theranos™ Wellness Centers.

In our breakthrough Wellness Centers, we're making lab testing more accessible than ever.

It all starts here.

We believe access to accurate, affordable, real-time diagnostic information is a basic human right.

the lab test, reinvented.

At Theranos, we can perform our lab tests on samples as small as 1/1,000 the size of a typical blood draw.

A few drops is all it takes.

Theranos' patented technology can analyze samples as small as 1/1,000 the size of the typical piped draw. Our tests are certified in our CLIA laboratory and cover a full range from blood, urine, and other samples. It's fast, easy, and the highest level of quality.

Fast results. Fast answers.

Our proprietary infrastructure allows us to perform our test analyses with unprecedented speed. So we can have results to you and your doctor in a matter of hours, not days. Which means a fast diagnosis to support better, more informed treatment.

High levels of precision.

By systematically controlling and standardizing our micro-processes, we offer tests with high levels of precision. We've also automated our pre- and post-analytic processes, minimizing human processing — the cause of the majority of lab test errors.

Precise trending.

Since we make it easy to measure your body's information at the needed frequencies, we can help doctors to see small changes in test results as they emerge over time. In doing so, we're working to help you and your doctor track chronic conditions and provide insight into the early detection of a broad range of clinical conditions.

same tests. smaller sample.

At Theranos, we're committed to making the whole lab testing experience more comfortable and convenient. Because we believe that engaging with your health should be positive and empowering.

Finally, a lab test that asks less of you.

- No big needles.
- Just a tiny sample.
- Into our nanotainer™ tube.

A totally new experience.

Over the next few months, we'll be introducing groundbreaking new specs that transform the way you think about lab tests. Our Theranos Wellness Centers are designed to make your experience as easy and comfortable as possible. You can make an appointment or walk in at your leisure with your doctor's order form. Then enjoy our friendly new process. Everything is designed with your wellness in mind.

The only thing we want you to feel is better.

Instead of a big, intimidating needle, our certified phlebotomists can use a tiny finger stick or a micro sample from a venous draw. Occasionally, a venipuncture may be required based on the lab order, but this is uncommon, and our aim is to eliminate that scenario entirely.

Our experience is a frictionless, less invasive, and less painful one. No big veins to fill. No more searching for a good vein because so much blood is required. And no big, painful bruises. The only thing we want you to feel is well.

Unrivaled convenience.

With Theranos, you can give your sample in your doctor's office or bring your doctor's lab order to any of our convenient Theranos Wellness Centers. No more trekking to an out-of-the-way laboratory. No more dealing with your health on someone else's terms. With our extended hours—including nights and weekends—it's easy to fit your tests into your busy schedule.

OUR SOLUTION / DIGITAL TOOLS

the lab test goes digital.

We've been working to create a system designed to help you and your doctor know more. Because we believe the more you know about what's happening in your body, the more you can do to live the life you want to live.

We believe you have the right to your own health information.

Everything, right at your fingertips.

From lab order, to processing, to results, every aspect of your testing is connected through our secure online network. So you and your doctor can always have answers quickly and accurately, right when you need them. All with institutional level safeguards that make sure your information is always safe and private.

A new way to see results.

Your results are delivered to your doctor electronically within minutes after our lab completes your tests. Your doctor will also be able to use theranos md, our secure digital hub that organizes all your results in easy-to-read graphs. When your doctor releases your results, you'll also be able to see your data through the theranos.me website and mobile apps. All of which helps you and your doctor visualize your health in a whole new, informative way.

Answers at the speed of digital.

Waiting for results is often the worst part of getting a test. With Theranos, you and your doctor can get answers back fast. Less waiting, less fear. We've designed our systems to help you and your doctor view your results anywhere, anytime, to help you get the care you need when you need it.

It's just the beginning.

We believe you deserve to know everything about your body. So we're building a suite of tools for you and your doctor - from websites to mobile apps. With Theranos, we're working to help you see and better understand your information, to help you and your doctor monitor and take control of your health.

innovation meets accessibility.

We offer a full range of laboratory tests. And we're working to democratize access to high quality, low cost testing for everyone. Because we believe everyone deserves access to the best technology, the best science, and the best tools to help them and their doctor know more about their health.

TEST MENU

We're committed to providing the highest-quality, lowest-cost lab tests.

A comprehensive test menu.

From common panels to specialized tests, Theranos offers a comprehensive testing menu. So whether you're living with a chronic condition or actively managing your own health, we've built our laboratory to be able to support your range of care needs. We use the same standard codes and protocols your doctor knows so you and your doctor can always order with familiarity.

Covered and affordable.

We're committed to making lab testing more accessible to everyone. That means pricing our tests at dramatically low rates. We can accept major insurance carriers as well as Medicare and Medicaid. And if you're uninsured, we offer you the same discounted prices we offer everyone else. Because a test should cost the same, no matter who you are.

Oncology

When you need frequent testing, we're easy, fast, and less painful.

Pediatrics

Our tiny micro sample means our littlest patients have more smiles and fewer tears.

Geriatrics

No more searching for veins. We can collect your sample using a tiny finger stick.

Theranos™ Wellness Centers

With a high-tech feel to it, our new, intimate Wellness Centers will bring our new experience to convenient, neighborhood locations.

View Theranos Wellness Centers at:

A peaceful, tranquil space.

Our Wellness Centers feature relaxing spaces with peaceful, inspiring art and music. From soothing visuals on the walls to something as simple as a really comfortable seat, we make sure you'll always be surrounded by the calm feeling of wellness.

Comfort. Relaxation. It's a different world in here.

Welcome to efficiency.

We know your time is valuable, so we want your experience to be as fast and efficient as possible. Without a long check-in, you'll be in and out of our center in less than 10 minutes.

The comfort of convenience.

You can make an appointment or simply walk into any Theranos Wellness Center, where our staff will greet you and get you started. Or, you can simply have your doctor submit your order electronically. And, since you'll be able to see us at our centers, you'll be able to see us when you need us, no matter how busy your schedule is.

theranos

is now in

Walgreens

Theranos™ Wellness Centers will soon be located within Walgreens stores nationwide.

The Theranos™ Wellness Center, coming right to your neighborhood.

As convenient as your nearest Walgreens.

With no waiting or go-to-persons, access to less-wait-for, high-quality lab testing. By locating Theranos™ Wellness Centers inside conveniently-located Walgreens stores, we're making it super easy to meet this need.

[View all Theranos Wellness Centers](#)

[120,000+ STORES](#)

[FIND A LOCATION](#)

Your health, on your schedule.

Since many Walgreens® stores are open early mornings, evenings, weekends, and even holidays, our Wellness Centers can fit into your schedule. Now you can have your lab order done at your convenience while shopping, running errands, even on the day of your doctor's appointment.

An easier way to wellness.

No one should overlook the time to spend on their health. It's too costly, too inconvenient, or too expensive. With The shop, it doesn't have to be that way. By placing our Wellness Centers in neighborhood Walgreens stores, we're making it easier for you and your doctor to get information about your health. And a little knowing changes everything.

[HOW WE DO IT](#)

[Follow @theranos](#)

At **Theranos**, we can perform our lab tests on samples as small as 1/1,000 the size of a typical blood draw.

Theranos will perform a full range of clinical chemistry as well as a few key blood tests. This is 1/100th the size of a typical blood chemistry laboratory and validated under FDA, ICH, and WHO guidelines. And we provide the highest level of oversight, automation, and standardization in both our pre- and post-analytic processes to realize the highest level of accuracy and precision.

Since we can run a full range of assays on a single micro-sample, you can specify follow-on assays to be run automatically if test results are not to your liking. This means you've got control over the trip to the lab, help avoid poorly-timed decision-making and unnecessary prescriptions, and auto-generate properly designed drug trials.

Because Theranos rapidly processes fresh samples, we can analyze key markers before their levels decay, reducing the difficulty of analysis. Our systems can then help provide insight into subtle trends in important analytes, or combinations of analytes, and display results graphically in a rich environment.

conduct, and compliance with laws and regulations. The Board is responsible for the following:

It should be noted that the program does not allow us to write the program directly into the database. We have to use the `write` function to write the program into the database. The `write` function is a function that takes a string and a file name as arguments and writes the string to the file. The `write` function is a function that takes a string and a file name as arguments and writes the string to the file.

Pharmacokinetics is the study of how a drug moves through the body. It involves understanding the absorption, distribution, metabolism, and excretion of a drug. This information is crucial for determining the appropriate dosage and timing of drug administration.

4. Your Challenge

[illegible]

5. Data Security

There are many reasons why people do not use the Internet. Some of the most common reasons are lack of access, lack of knowledge, and lack of time. Lack of access is a problem in many developing countries where the Internet is not widely available. Lack of knowledge is a problem in many older people who do not know how to use the Internet. Lack of time is a problem in many people who are busy with their work and family. There are many ways to overcome these problems. One way is to provide more access to the Internet in developing countries. Another way is to provide more training for older people on how to use the Internet. A third way is to provide more flexible work schedules for people who are busy with their work and family.

[illegible]

B. Children's Privacy

On October 12 marked the 500th anniversary of Columbus's arrival in the Americas.

There are three ways to get your hands on a copy of the *For the Love of Money* book. You can purchase a hardcover or paperback (available in paperback only) or you can download the eBook. The eBook is available for \$9.99 (a 50% discount off the hardcover price) and is available for purchase on Amazon.com, BarnesandNoble.com, and Apple.com. The eBook is available for purchase on Amazon.com, BarnesandNoble.com, and Apple.com. The eBook is available for purchase on Amazon.com, BarnesandNoble.com, and Apple.com.

It is an important principle of design to use color to create a visual hierarchy. This means that the most important elements of a design should be highlighted with color, while less important elements are in shades of gray. This helps the viewer's eye to focus on the most important information first.

T. International Visitors

It is important to understand that the results of this study are not generalizable to all populations. The study was conducted in a specific context and with a specific sample, and the results may not be applicable to other populations or settings. Therefore, the findings should be interpreted with caution and used as a guide for further research.

6. In the Event of Merger or Sale

At the point that Theobald is accused by de maresca of a false charge, de maresca is already a prisoner of conscience, and despite the fact that de maresca is a knight, he is not a knight in the sense of the medieval knight, but a knight in the sense of the modern knight.

6. [Channel 104.1](#) dedicates to [this website](#) a business policy

For example, a young couple may have a young person living with them in the interim in order to ensure that the child has a safe and secure home. They may also be able to access other services, such as day care, which will help them to get on top of their responsibilities and ensure that the child is properly cared for. However, it is important to note that the child's needs must be met, and the child must be able to live with the family in the interim. The child must be able to live with the family in the interim, and the family must be able to provide the child with a safe and secure home.
