Adam,

Erika has been put into a meeting representing Edisons in a "Normandy Council" so to speak.

Her question below may spark a small discussion between us.

Mark

Subject: Quick Question

Hi Mark,

I went to the Normandy meeting today, and I noticed that Nishit was really out of touch with some of the issues going on in CLIA ELISA. Am I allowed to disclose information about our PT testing and issues downstairs to him?

Considering he is managing scaling Normandy up, I figured it would be good to fill him in on problems we've been running into.

Thanks,

Erika
