Subject: Re: FYI--plans are enacted

Thanks for sending the update, and for driving this. This is how we make sure we get accepted. Looking forward to connecting tomorrow.

After we got back to NWK, got in touch with Michele, Fran, and Lisa, so we're full steam ahead on 2120 and review of CMS response, as you outlined earlier today.

One change = Jun appears to be a much better choice than Hoda to run the 2120, so he's being retained for that role, with Fran's guidance, and Jen/Sonia providing remote support as needed (which should be largely unnecessary).

I'll be contacting A. Baca in a few min, to secure his services, if possible.

We're all going to get this done.

Thanks so much for your support.
