Sunny,

It wasn't a firm commitment, only a courtesy. I would hope that after 9 years, there would be something Theranos could share with us on a regular basis. We have been more that patient.

Best,

Alan

Alan.

no one from this company has ever committed to a short quarterly call with you or any other investor selectively. I was very explicitly discouraging you from investing in January of 2014 and no information has been disseminated.

thanks.

Sunny,

When we spoke several months ago, you said that we could have a short quarterly call. I don't think this is an unreasonable request.

I heard that there was financial information disseminated on the January 2014 round. If so, is that something you can share with existing shareholders.

Alan.

I think these emails are beyond ridiculous. Yes, Theranos like any other company, can become obsolete. This does not warrant investor calls and updates because someone wrote an article that Theranos can become obsolete.

you continue to bombard us with emails and phone calls even though just 12 short months ago I spoke with you in detail that you will not get any updates, that you shouldn't invest and that management will NOT be spending anytime with you providing you updates and responding to your emails about business operations, strategy and details.

you will get updates along with other investors.

sunny.

Elizabeth and Sunny

This is the second google alert I have received recently that claims Theranos could become obsolete. Can we have a brief catch up call this week? Please don't ignore this request.

Thanks,

Alan
