Hi Addy,

I am sending the computer, but the envelope is too small. I presume I can use the label and put it in a bigger box? Do you want the power cord? I know it is not your policy, but can you please ask permission to send us a copy of anything you are able to retrieve from the hard drive? There are some priceless memories, most especially any pictures that can be salvaged. You know that I am a faithful part of your team, and will do all that I can to help your case.

Best,
Alan
