the blood tests that need just a tiny sample.

Walgreens Partners with Theranos to Provide Lab Services.

Theranos is working to shape the future of lab testing. Now, for the first time, their high-complexity CLIA-certified laboratory can perform your tests quickly and accurately using tiny samples.¹

one tiny drop changes everything.

Theranos' CLIA-certified laboratory can analyze samples as small as 1/1,000 the size of the typical blood draw. Their lab can perform tests on any sample type, including blood, urine, and other samples. It's fast, easy, and the highest level of quality.

covered and affordable.

Theranos is committed to making lab testing more accessible to everyone. That means pricing their tests at dramatically low rates. Theranos can accept major insurance carriers as well as Medicare and Medicaid. And if you're uninsured, they offer you the same discounted prices they offer everyone else. Because a test should cost the same, no matter who you are.

goodbye, big bad needle.

Instead of a huge needle, Theranos-trained technicians can use a tiny finger stick or collect a micro-sample from a venous draw.² It's practically painless and a lot less scary. Now the entire lab testing process is comfortable, accommodating, and less intimidating – for people big and small.

fast results. fast answers.

Theranos performs their test analyses fast, so they can return results to your clinician faster than ever before.³ That means a more timely diagnosis to support better, more informed treatment.

It's easy to get started

1.
Get a lab order from your clinician.

2.
