same tests. smaller sample.

At Theranos, we're committed to making the whole lab-testing experience more comfortable and convenient. Because we believe that engaging with your health should be positive and empowering.

Finally, a lab test that asks less of you.

No big needles.

Just a tiny sample.

Into our nanotainer™ tube.

A totally new experience.

Over the next few months, we'll be introducing groundbreaking new spaces that transform the way you think about lab tests. Our Theranos Wellness Centers are designed to make your experience as easy and comfortable as possible. You can make an appointment or walk in at your leisure with your doctor's order form. Then enjoy our friendly new process. Everything is designed with your wellness in mind.

The only thing we want you to feel is better.

Instead of a big, intimidating needle, our certified phlebotomists can use a tiny finger stick or a micro-sample from a venous draw. Occasionally, a venipuncture may be required based on the lab order, but this is uncommon, and our aim is to eliminate that scenario entirely.

Our experience is a friendlier, less invasive, and less painful one. No big vials to fill. No more searching for a good vein because so much blood is required. And no big, painful bruises. The only thing we want you to feel is well.

Unrivalled convenience.

With Theranos, you can give your sample in your doctor's office, or bring your doctor's lab order to any of our convenient Theranos Wellness Centers. No more trekking to an out-of-the-way laboratory. No more dealing with your health on someone else's terms. With our extended hours – including nights and weekends – it's easy to fit your tests into your busy schedule.
