Hey Randy, if you hear more about Jerry going to Palo Alto, I would love to tag along at least one-way. I have half a dozen things I didn't have time last week to do there.

Also, I realize Theranos indirectly came to Jerry through our connection w BDT, but if there's any opportunity for me to work on that one, I would really love it. She impresses the hell out of me and I would love to be part of that. I know a lot about blood testing w Jeff's diabetes and I really enjoy healthcare in general. I also have multiple reasons to fly that direction. Anyway, thought I'd at least raise my hand because it fascinates me. Do what you have to... Thanks.

Lisa Peterson
