Sounds like a great meeting at Theranos.

I'll let you know what I find at the GP summit.

Theranos was pretty amazing. Very impressive what they are doing. Jerry committed on the spot \$100M with Doug and Cheri in complete agreement. See where it goes from there. The growth potential is staggering.

Lisa,

Whenever you have time, I would love to hear about your meeting with Elizabeth Holmes. Hope you enjoyed meeting her with the family. I tried to stop by a couple of times but you were either on the phone or had someone in your office (like Elizabeth this morning).

I don't think I will join you for the [REDACTED] meeting next week. I am going to Goldman's Annual Meeting tomorrow and then ILPA GP Summit the following week. [REDACTED]

[REDACTED]

I'm in all day today and back on Friday.
