Hi Dr. Dhawan:

My name is Langly Gee and I am the QA/QC Manager for Theranos, Inc.

I was given your email address from Daniel Young and I am to begin sending you documents for your signature.

My first set of seven documents (Validation, SOPs and employee training) has to do with Theranos' new launch of T-cell, B-cell, NK-cell assay. These documents will arrive in your email today through the DocuSign application. Please review these documents and I have set up a specific page on each document for you to electronically sign, print name and date.

Once you receive the email, you will have 30 days to review the documents and send them back to me. Going forward there will be at least another 300 – 400 more documents for your review. I would like to ask your opinion as to how you would like them sent, i.e. all at once, 50 per week. Please advise.

If you have any questions, please do not hesitate to contact me.

Langly Gee

Theranos, Inc.

QA/QC Manager
