General Mattis:

Thank you for these words and for your belief in all we're doing. This initiative is our small way of being able to serve and we will do whatever it takes to make it successful. There is much I look forward to sharing with you once it's done. Your continued faith and support for this initiative has humbled and only further inspired us. With how difficult it is to change a system that refuses to change, having the trust and faith and confidence of the people you respect the most matters more than anything.

Thanks, young Elizabeth. I'm a strong believer in what you have designed/built and hope that we can get it in theater soon to test it. If it proves itself, I'm confident that it can revolutionize much of what we do in combat zone health care. I wish you all the best and thank you for your contact info. Best wishes, Jim
