Subject: Kickoff - Demo

Hi Sunny, Elizabeth,

Just to confirm that we have locked in on a date for the kickoff at the end of September (28th). Could we have a few devices for demo's the week before - so we can do a few tests? I assume we won't have the multi-bay devices yet so we will still be limited how many we can do at one time. Nevertheless it is critical to start giving team members a "feeling" for what the experience will be like. Let me know if you need anything from us and how you would like to proceed - or maybe we start handling this with Daniel if you prefer?

Many thanks,
Renaat
