So so much. Can't focus on anything except why? Why hurting myself? Can't even move let alone do sit-ups or actually sit up. Lying swollen. Literally. Gratitude Kk discipline Beauty of Clinton photograph Crave cake psychologically. Feel sick fat not good about myself want to force throw up. Heart pounds 4 x speed. Times infinity. Stomach hurts. Tired and distracted. Not energy zone in and pound out. Want to force throw up. Tired but can't let sleep feel sick. Opposite of how felt - soaring - in dress at alfalfa cocktails. Really want to throw up. During day just thought eat all psychologically attracted to. Ate. Then felt fucking sick. Still sick. Will go get rid of all sweets from house. Pray to god internalize this permanently heart pounding in my mind. Brain capacities first awakening. My sapphire shines through. Please God. I pray. I really want to make myself throw up right now. Feel like throwing up. Times infinite. Really wants throw up. Feel like shit. Opposite of Clinton foundation or anytime I haven't eaten when my energy puts me in flight! I get more done then because I zone in. Now I'm just distracted, tired, and my heart is pounding. It's 9:43 at the office and its a sick negative cycle. God I've burned it in I give you my word. I will live your destiny, your beauty, every moment for the rest of my life. I swear to you. My first swear. You. I adore you. I will show you. Thank you. I am infinitely grateful to you. I know it is a wondrous gift. First day of my life. I am so sorry. I will never forget. Never self destruct. Here or in any other area of my life. I'm so sorry I thought I had to hurt myself to remember. I remember through your infinite glory. Always. Infinitely. Age of mbww begins. Your creation is alive. Regenerating. Generating.
