| 24,964   | 25000.000        | 25,000         | 9/12/2016    | Focusing on patient's healthcare needs, we will examine the role managed care pharmacy and health plans can – and should – play in addressing opioid pain therapy abuse and misuse. Program topics will address: Expanding body of knowledge related to pain management and opioid pharmacotherapy, latest breakthroughs in addictive medication treatment; evidence-based guidelines to help prevent adverse events and ensure treatment effectiveness. Opioid monitoring and techniques to avoid medication addiction; health plan initiatives, reporting and tracking tools for prescribers and dispensers. Patient needs and implications for specific communities; medically appropriate pain treatment; coordination of care. Ramifications for managed care organizations and health plan coverage. The ideas and recommendations will be shared with policy makers, employer and patient. | 10/3/2016           | 10/3/2016         | Live          | Live            | Chronic Pain (General) | Pain             | General   | Gaylord National Hotel                            | MD    | 9/12/2016     | AMCP Foundation   | Phillip            | Schneider         | 100 N. | 21,646 | 295643.000 | 295,643 | 5/18/2015 | Physicians lack the knowledge, competence, and performance skills to successfully manage chronic pain. Gaps showed: Neither primary care physicians or their patients fully understand the nature of pain resulting in inadequate or inappropriate treatment; Physicians are not fully aware of REMS programs; Despite the prevalence of pain in society, it continues to be under- or untreated; Physician and patients do not talk about pain. Therefore, this accredited educational program will consist of live meetings; enduring materials; and web-based content. All activities are designed to be complementary; providing learners with an enriched foundation of knowledge to increase their comprehension of this complex therapeutic area, and to fill knowledge, competence, and performance level. |           |            | Enduring Material | Monograph              | Chronic Pain (General) | Pain | Family Medicine |                                       |    | 5/18/2015 | American Academy of Family Physicians, New Jersey Chapter | Theresa Barrett | 224 West State Street | Trenton | NJ | (609) 394-1711 |

| 20,472 | 15000.000  | 15,000  | 2/23/2015 | AAHPM and HPNA represent nearly 17,000 physicians, nurses, and other interdisciplinary professionals working in hospice and palliative care. Together, these organizations collaborate to develop an interdisciplinary educational Annual Assembly hosting over 2,500 professionals (excluding exhibitors), including many palliative care providers from around the world. This meeting provides continuing education credits for physicians, family physicians, nurses, pharmacists, medical directors, and social workers. This continually evolving meeting now includes over 130 educational sessions; 100 scientific and case-based posters; and individual consultations with a billing and coding specialist, representatives from the National Institute of Health or National Institute for Nursing Research, peers in hospice practice, and a career counselor. Venues are provided for educators to share practical tools and techniques and for over 25 presenters to present their work. | 2/25/2015 | 2/28/2015  | Live | Live                            | Chronic Pain (General)  | Pain | General               | Pennsylvania Convention Center | PA | 2/20/2015 | American Academy of Hospice and Palliative Medicine       | Alyssa Engle       | 8735 W Higgins Rd        | Chicago | IL | (847)375-4829  |

| 16,352 | 33276.810 | 15,000 | 11/7/2013 | Quality Improvements for Opioid Pain Management: Practical Steps You Can Use Next Week is a 6-hour, multi-sponsored, case-based workshop format that will describe and portray through case studies, the basic best practices for using opioid therapies to manage pain and will include: assessing pain, creating treatment plans, differentiating between different opioid therapies, managing risk and using adjuvant modalities – behavioral and physical medicine— not only to relieve pain but, more importantly, to promote healing and restoration of function. Using a case study format supported by didactic presentations, attendees will work in small groups to discuss the key points. Because of the subjective nature of pain, often there are no absolute correct choices, just informed best practices based on sound education and communication and agreement between clinician and patient.   | 9/26/2013 | 9/26/2013 | Live              | Professional Education Programs | Chronic Pain (General)  | Pain | Clinical Psychologist | JW Marriott Grande Lakes | FL | 11/7/2013 | American Academy of Pain Management | Debra Nelson Hogan | 975-A Morning Star Drive | Sonora | CA | (212) 532-4794 |

| 24,768 | 20000.000 | 20,000 | 7/28/2016 | This program is intended to provide education on optimal management of chronic pain, particularly using opioids appropriately and managing patients' risk for harm. Faculty will discuss the elements of appropriate opioid prescribing for chronic pain and engage the attendees in interactive discussions of two illustrative case studies. The following will be discussed: primary care perspective on proper assessment for pain; strategies for assessing a patient's risk for opioid misuse, abuse, and addiction; initial considerations in selecting an opioid; and alternative treatment options; safe prescribing and ongoing monitoring and surveillance using available tools such as urine drug testing and prescription databases; various opioids, including abuse-deterrent formulations; use of naloxone, opioid interactions; opioids in patients with complex issues such as addiction; legal/regulatory considerations; opioid prescribing best practices and |           |           | Enduring Material | Enduring Material               | Chronic Pain (General)  | Pain | Pain Medicine         |                          |    | 7/28/2016 | American Academy of Pain Management | Debra Nelson Hogan | 975-A Morning Star Drive | Sonora | CA | 209-288-2211   |

| 20,982 | 25000.000 | 25,000 | 3/2/2015  | This program is designed so that all clinicians will meet or exceed the needs of the patients they serve by improving the assessment, evaluation, clinical decision making, and management of common pain disorders. This will be accomplished by implementing evidence-based pain treatments and protocols, including safe prescribing practices that mitigate risks associated with use of opioid analgesics, and ultimately improve quality and safety of patients' lives. This curriculum effectively integrates interventional, integrative, and patient-centered pain care - designed to improve the integration of evidence-based protocols into clinical decision making across multiple practice settings. Topics identified but not included in the 2014 program included: non-opioid pharmacology, medical/legal/ethical issues, legal/government, physical therapy/exercise, anatomy and physiology. These   | 3/18/2015 | 3/19/2015 | Live | Live | Chronic Pain (General) | Pain | Pain Medicine                        | Gaylord National Hotel and Convention Center  | MD | 2/27/2015 | American Academy of Pain Medicine | Alyssa | Engle | 8735 W Higgins Rd | Chicago | IL | (847)375-4829 |
| 23,092 | 25000.000 | 25,000 | 1/11/2016 | The Annual Meeting addresses the needs and reduces the disparities in access to quality, evidence-based pain care by providing educational opportunities to pain clinicians and primary care providers. The program is designed to develop knowledge, competence, and performance related to common pain management protocols, including prescribing practices recommended to maximize the safety and effectiveness of opioid analgesic therapy and their understanding of the growing field of comprehensive pain medicine through evidence-based research, clinical practice standards and guidelines, integrative medicine, and interactive educational strategies. Educational activities will empower pain care champions to transform their communities by improving assessment, evaluation, and clinical decision-making skills. | 16,092 | 25000.000  | 25,000  | 6/7/2013   | The American Pain Society (APS) has established a Future Leaders in Pain Research Grants Program to fund research projects of doctorally-prepared investigators who have not yet attained NIH RO1 level funding. The program's intent is to encourage the continued training and research in pain that will add to the body of knowledge, and to allow investigators to develop pilot data that will aid them in securing additional major grant funding to continue their investigation in the study and treatment of pain. We are requesting that you partner with us to expand reach into the field of pain. This program is a research award that will support research projects. The findings of the research will be presented at the APS Annual Meeting.  |           |           | Fellowship | Fellowship             | Chronic Pain (General) | Pain |                       |                         | 6/6/2013 | American Pain Society | Alyssa Engle                         | 4700 W. | 16,092 | 25000.000  | 25,000  | 6/7/2013   | The American Pain Society (APS) has established a Future Leaders in Pain Research Grants Program to fund research projects of doctorally-prepared investigators who have not yet attained NIH RO1 level funding. The program's intent is to encourage the continued training and research in pain that will add to the body of knowledge, and to allow investigators to develop pilot data that will aid them in securing additional major grant funding to continue their investigation in the study and treatment of pain. We are requesting that you partner with us to expand reach into the field of pain. This program is a research award that will support research projects. The findings of the research will be presented at the APS Annual Meeting.  | 5/13/2015 | 5/16/2015 | Live       | Live                   | Chronic Pain (General) | Pain | Pain Medicine         | Palm Springs Conv Ctr   | CA       | 6/6/2013              | American Pain Society                | Alyssa Engle     | 4700 W. | 23,508 | 25000.000 | 25,000 | 2/2/2016  | Pain is a leading cause of disability and a major public health problem. Ensuring appropriate assessment and treatment of pain has a far-reaching impact on morbidity, mortality, quality of life, and economics of individuals and across the healthcare system. There is a continued need to connect the work of researchers studying the science of pain with those from multiple disciplines who seek to use the best and most current evidence to treat and thus improve pain care, especially as put forward in The National Pain Strategy (4/2/2015). The document includes objectives for key areas of pain care: professional education, public education/communication, service delivery/reimbursement, prevention and care, disparities, and population research. APS provides the pain community with a unique forum for sharing advances and standards in evidence-based pain research and treatment by colleagues from all | 5/11/2016 | 5/14/2016 | Live | Professional Education Programs | Chronic Pain (General) | Pain | General           | Austin Convention Center     | TX | 2/1/2016  | American Pain Society | Susan  | Vogel | 8735 W Higgins Rd | Chicago | IL | (847) 375-4829 |

| 23,746 | 25000.000 | 25,000 | 3/10/2016 | The Fundamentals of Pain Management Course: An Interdisciplinary Primer© has been established to fill the need for a highly-trained researchers and practitioners to address the treatment of pain as a public health issue. The pedagogical aims are to provide an opportunity for interdisciplinary learning and the social foundation for lifelong learning focused on pain management. The target audience is practitioners in Anesthesia, Neurology, Family Medicine, and Physical/Rehabilitation Medicine. No CME credits are provided. The 1 1/2 -day course, combining didactic lectures with breakout groups and case studies, offers approximately 13 hours of content. The content provides an overview of all aspects of pain medicine and specific presentations on common pain disorders. Following the course, participants attend the Annual Scientific Meeting to further discuss them with other                       | 5/10/2016 | 5/11/2016 | Live | Live                            | Chronic Pain (General) | Pain | General           | Austin Convention Center     | TX | 3/10/2016 | American Pain Society | Susan  | Vogel | 8735 W Higgins Rd | Chicago | IL | (847) 375-4829 |

| 16,564 | 18863.000 | 5,000 | 11/7/2013 | An outstanding faculty from Beth Israel Medical Center and MHS Hospice and Palliative Care will present plenary and breakout sessions covering an array of topics relevant to the practice of specialty palliative care in varied disciplines. All faculty members are authorities in their fields with years of experience presenting at international, national, and local conferences. Plenary sessions will include keynote presentations on 'goals of care' discussions and the role of caregivers in end-of-life care; a panel on ethics and law; and hospice eligibility in complex cases. Breakout sessions will be offered in four areas: pain management in advanced illness; the interdisciplinary team; psychiatric and psychosocial issues; and evolving issues in palliative care. Because attendees at past programs expressed the desire to attend more breakout sessions, we have expanded the time allotted to these at this conference, adding all attendees the | 12/3/2013 | 12/3/2013 | Live | Live | Breakthrough Pain | Pain |                   | CUNY Graduate Center | NY | 11/7/2013 | Beth Israel Medical Center | Winifred | Schein | First Ave at 16th Street | New York | NY | (212) 844-1219 |

| 25,396 | 85000.000 | 85,000 | 12/14/2016 | Pharmacists are being called to be active members of the interprofessional healthcare teams when managing patients with chronic pain, and thus must have the confidence and competence to communicate with fellow healthcare providers and patients regarding the latest options in pain management. With the growing concern of opioid abuse, pharmacists must be cognizant of the scope of the problem as well as strategies available to deter abuse. Based on the identified practice gaps and defined educational needs, a satellite symposium at the 2017 American Pharmacists Association Annual Meeting & Exposition (APHA2017) will be an effective educational venue to increase the pharmacists' knowledge and competence in abuse-deterrent formulations (ADFs). At the conclusion of this activity, learners will be able to better understand the issues with opioid abuse and identify   |           |           | Enduring Material | Enduring Material | Chronic Pain (General)  | Pain | General          |                      |    | 12/14/2016 | Center for Independent Healthcare Education | Paul     | DeLisle | 1007 Bayley Ct.          | Bridgewater | NJ | (617)780-9077  |

| 25,396 | 85000.000 | 85,000 | 12/14/2016 | Pharmacists are being called to be active members of the interprofessional healthcare teams when managing patients with chronic pain, and thus must have the confidence and competence to communicate with fellow healthcare providers and patients regarding the latest options in pain management. With the growing concern of opioid abuse, pharmacists must be cognizant of the scope of the problem as well as strategies available to deter abuse. Based on the identified practice gaps and defined educational needs, a satellite symposium at the 2017 American Pharmacists Association Annual Meeting & Exposition (APhA2017) will be an effective educational venue to increase the pharmacists' knowledge and competence in abuse-deterrent formulations (ADFs). | 18,730 | 10000.000 | 10,000 | 9/18/2014 | 2.5-day program attracting registrants from around the world, the symposium brings together leaders in clinical practice to explore potential solutions on improving the quality of care of patients with chronic illnesses through palliative and supportive oncology therapies. This annual symposium focuses on providing an intensive multidisciplinary review of cutting-edge topics in the rapidly developing field of palliative medicine and supportive oncology. This year there will be a special focus on determining appropriate dementia patients for hospice care. Additionally, the symposium will examine opioid addiction in the cancer patient with concurrent chronic non-malignant pain, and learning to incorporate less commonly used opioids into clinical practice. Afternoon sessions/workshops offer two parallel tracks; one which focuses on supportive oncology and the | 9/18/2014 | 9/20/2014 | Live | Professional Education Programs | Chronic Pain (General)  | Pain | Oncology            | Green Valley Ranch Hotel | NV | 6/9/2014 | Cleveland Clinic Educational Foundation | Lori | Taylor | 9500 Euclid Avenue, KK31 | Cleveland | OH | (216) 448-0792 |

| 23,372 | 5000.000  | 5,000  | 1/12/2016 | This dynamic 5-day symposium will focus on in-depth reviews and analyses of recent advances in pain medicine and regional anesthesia/analgesia in a format that allows interaction between the faculty and attendees. The overriding goal of the activity is to enhance attendees' knowledge of state-of-the-art techniques in the diagnosis and management of acute and chronic pain, which will ultimately improve patient outcomes. Tremendous changes have affected the practice of pain management, particularly therapeutic advances. This symposium will promote a better understanding of the pathophysiology of acute and chronic pain, enhance knowledge regarding various chronic neuropathic pain conditions, and critically review novel state-of-the-art interventional and noninterventional techniques in diagnosis and management of chronic pain, cancer pain, and headaches. A nationally renowned faculty will provide       | 3/5/2016  | 3/9/2016  | Live | Symposium                       | Chronic Pain (General)  | Pain |                     | Loews Coronado Bay Hotel | CA | 1/11/2016 | Cleveland Clinic Educational Foundation | Mark Shelton | 9500 Euclid Avenue KK31  | Cleveland | OH | (216) 448-0899 |

| 15,578 | 131525.000 | 131,525 | 5/6/2013  | Our proposed activity is a Meeting Reporter, a print/online CE co-journal supplement to Seminars in Oncology Nursing and Pain Management Nursing, which will summarize key abstracts and posters on BTP presented at the 38th Congress of the Oncology Nursing Society (ONS). It will be distributed through the SON and PMN Journals and Elsevier nursing mail lists, as well as cross distributed through other subscribed to Elsevier Oncology and Pain journals and OncologyStat. An abstract will be published in and indexed on PubMed, with a URL directed back to the activity. This activity will primarily seek to reduce the knowledge gap on BTP among oncology nurses, a key audience that plays the most important role in managing pain among cancer patients. By presenting research done by nurses and presented at ONS, we will convey the importance of BTP in cancer and strategies |            |            | Enduring Material | Enduring Material | Breakthrough Pain       | Pain | Oncology                             |                   |    | 4/24/2013 | Elsevier Office of Continuing Medical Education     | Sandy | Breslow  | 1600 John F Kennedy Blvd., #1800 | Philadelphia | PA | (215) 499-3993 |

This activity will primarily seek to reduce the knowledge gap on BTP among oncology nurses, a key audience that plays the most important role in managing pain among cancer patients. By presenting research done by nurses and presented at ONS, we will convey the importance of BTP in cancer and strategies for the management of pain among cancer patients. | 5/27/2013 | 5/26/2014 | Web | Web Activity           | Opioid Misuse and Pain Abuse | Pain | Oncology                  |  |  | 4/24/2013 | Elsevier Office of Continuing Medical Education | Sandy | Breslow | 1600 John F Kennedy Blvd., #1800 | Philadelphia | PA | (215) 499-3993 |

| 22,270 | 241845.000 | 241,845 | 8/14/2015 | This 2-stage curriculum for pain specialists consists of linked online activities: 1) a 60-minute Medically Speaking... videotaped roundtable in which 3 pain experts, guided by a professional moderator, discuss key issues in optimizing benefits and limiting risk in use of opioid analgesia for chronic pain; 2) an interactive Current Medical Opinion (CMO) that starts with a 10-minute recap of the Medically Speaking... content, followed by 20 minutes in which learners pose questions via text, email, or phone, and get direct responses from faculty, who appear on webcam. The CMO is presented live twice (to accommodate varying schedules/time zones) before 1 session is archived and, like the Medically Speaking..., is available 24/7 on the CME website myCME for a full year. Learners are encouraged to complete both activities in sequence to receive maximum benefit. | 9/1/2015  | 9/1/2016  | Web               | Web Activity                    | Chronic Pain (General) | Pain |               |                |    | 8/13/2015 | Haymarket Medical Education, LP                                  | Marina     | Galanakis        | 140 East Ridgewood Ave.        | Paramus      | NJ | (201) 799-4830 |

| 20,722 | 240210.000 | 240,210 | 3/11/2015 | Live Satellite Symposium: an accredited symposium to be held in conjunction with the 2015 ONS Annual Meeting. This interactive symposium will bring together pain management experts to discuss current practices related to therapeutic options for BTP. Through advanced iPad technology, participant engagement and learning will be optimized, and key data will be collected concerning each participant's knowledge of diagnosis, assessment, and treatment of BTP. Live Simultaneous Streaming: To ensure that maximum number of oncology nurses benefit from the critical educational information in the symposium, MediCom will offer and promote the option of a live simultaneous streaming broadcast of the symposium hosted by EmergingSolutionsinPain.com, so that nurses not in attendance at ONS may benefit from this educational activity. Enduring: An accredited slide-audio self-study adaptation of the live symposium will be posted on |            |            | Enduring Material | Enduring Material   | Breakthrough Pain       | Pain |               |            |    | 3/11/2015 | MediCom Worldwide Inc | Joan | Meyer | 101 Washington | Morrisville | PA | (800) 408-4242 |

| 22,868 | 2292.500 | 2,293 | 1/6/2016   | This program is designed to educate pharmacists and pharmacy technicians about their different roles in helping appropriate patients address their pain management needs while also playing an important role in curbing the opioid epidemic. Pharmacists and pharmacy technicians must be able to adequately perform these dual roles to protect patient needs as well as community public health. This program meets the state of Michigan's continuing education in pain. | 2/28/2016  | 2/28/2016  | Live | Professional Education Programs | Chronic Pain (General) | Pain | General                   | Detroit Marriott at the Renaissance Center | MI | 12/17/2015 | Michigan Pharmacists Association | Sarah Barden    | 408 Kalamazoo Plaza  | Lansing | MI | (517)377-0240  |

| 16,988 | 16632.500 | 14,233 | 9/18/2013 | The PAFF's live CME conference in November 2013 includes two sessions related to the safe use of opioids. "Prescription Drugs in America," presented by a retired DEA agent, will educate primary care physicians about incidence, identification and prevention of prescription abuse/misuse among their patient populations. Building on the information presented in the prescription drug session, the "Extended-Release/Long-Acting Opioid Therapies" lecture will present the latest risk evaluation and mitigation strategies (REMS) for extended-release and long-acting opioids. We expect approximately 100 physicians to attend the prescription drug lecture and 200 the opioid therapies lecture. Both lectures about prescription drug safety will be streamed live over the internet. Both lectures will also be available for 12 months as accredited webcasts following the |           |           | Enduring Material | Newsletters            | Opioid Misuse and Abuse | Pain | Family Medicine |                |    | 9/18/2013 | Pennsylvania Academy of Family Physicians Foundation | Cathy Stamm | 2704 Commerce Dr. | Harrisburg | PA | (717)635-7579 |

Building on the information presented in the prescription drug session, the "Extended-Release/Long-Acting Opioid Therapies" lecture will present the latest risk evaluation and mitigation strategies (REMS) for extended-release and long-acting opioids. We expect approximately 100 physicians to attend the prescription drug lecture and 200 the opioid therapies lecture. Both lectures about prescription drug safety will be streamed live over the internet. Both lectures will also be available for 12 months as accredited webcasts following the | 11/9/2013 | 11/9/2013 | Live              | Live                   | Opioid Misuse and Abuse | Pain | Family Medicine | Sheraton Hotel | PA | 9/18/2013 | Pennsylvania Academy of Family Physicians Foundation | Cathy Stamm | 2704 Commerce Dr. | Harrisburg | PA | (717)635-7579 |
| 16,988 | 16632.500 | 14,233 | 9/18/2013 | The PAFF's live CME conference in November 2013 includes two sessions related to the safe use of opioids. "Prescription Drugs in America," presented by a retired DEA agent, will educate primary care physicians about incidence, identification and prevention of prescription abuse/misuse among their patient populations. Building on the information presented in the prescription drug session, the "Extended-Release/Long-Acting Opioid Therapies" lecture will present the latest risk evaluation and mitigation strategies (REMS) for extended-release and long-acting opioids. We expect approximately 100 physicians to attend the prescription drug lecture and 200 the opioid therapies lecture. | 18,986 | 10000.000 | 10,000 | 5/20/2014  | This 2-day interprofessional regional conference brings together national and local leaders involved in efforts to address diverse challenges in providing effective pain control safely. Participants will share expertise, network and obtain knowledge and resources to assist patients in pain by evaluating and treating it in the most effective manner. The treatment of persistent pain is one of the most complicated clinical challenges providers face, and it cannot be done well in isolation. Thus, a major focus of the conference is to help providers develop an interdisciplinary team while assimilating neuroplasticity, motivational interviewing, effective pain education, interprofessional approaches, and safe prescribing into our clinical settings. Additionally, 2 hours of Risk Evaluation and Mitigation Strategies (REMS) training, is part of the conference. These speakers will improve provider practices by | 5/30/2014 | 5/31/2014 | Live              | Live                   | Chronic Pain (General) | Pain |               | university of montana       | MT | 5/19/2014  | Postgraduate Institute for Medicine                            | Angela Noreen Meader | 304 Inverness Way South, Suite 100 | Englewood  | CO | 7208955380    |

| 24,744 | 7500.000  | 7,500  | 7/26/2016  | Nonmedical use and abuse of prescription pharmaceutical drugs is a serious public health problem. Although most people take prescription medications responsibly, an estimated 52 million people (20 percent of those aged 12 and older) have used prescription drugs for nonmedical reasons at least once in their lifetimes. The abuse of certain prescription drugs—opioids, central nervous system (CNS) depressants, and stimulants—can lead to a variety of adverse health effects, including addiction. Overdoses from prescription opioid pain relievers are a driving factor in the 15-year increase in opioid overdose deaths. Since 1999, the amount of prescription opioids sold in the U.S. nearly quadrupled as have the number of deaths from prescription opioids—drugs like <del>oxycodone, hydrocodone, and methadone. | 24,744 | 7500.000  | 7,500  | 7/26/2016  | Nonmedical use and abuse of prescription pharmaceutical drugs is a serious public health problem. Although most people take prescription medications responsibly, an estimated 52 million people (20 percent of those aged 12 and older) have used prescription drugs for nonmedical reasons at least once in their lifetimes. The abuse of certain prescription drugs—opioids, central nervous system (CNS) depressants, and stimulants—can lead to a variety of adverse health effects, including addiction. Overdoses from prescription opioid pain relievers are a driving factor in the 15-year increase in opioid overdose deaths. Since 1999, the amount of prescription opioids sold in the U.S. nearly quadrupled as have the number of deaths from prescription opioids—drugs like <del>oxycodone, hydrocodone, and methadone. | 15,794 | 15000.000 | 10,000 | 9/17/2013 | This program is a live 2-day CME-approved conference where attendees will learn state-of-the-art chronic pain & symptom management specific to cancer patients, leading to improved quality of life, patient outcomes, higher quality end-of-life care, & lower health care costs. This program is open to an international audience and will feature two international speakers. It is designed as an educational activity that combines the knowledge to close practice gaps with the competence to improve clinical practices – an effort that should ultimately result in improved patient outcomes. Instructional methods include didactic lectures and plenary sessions, panel discussions, question and answer sessions, and interactive small groups/breakout | 10/11/2013 | 10/12/2013 | Live | Symposium | Breakthrough Pain       | Pain | General          | MD Anderson Cancer Center | TX | 9/16/2013 | The University of Texas MD Anderson Cancer Center | Kelley Porras | 1155 Pressler, Unit 1381     | Houston | TX | (713) 563-0603 |

| 18,142 | 241900.000 | 241,900 | 1/29/2014 | This grant proposes an accredited Evidence-Based Best Practices Program at the 39th Annual Congress of the Oncology Nursing Society, which will be held on May 1-4, 2014 in Anaheim, California. The 90-minute case-based program will include interactive discussions among expert faculty dedicated to the collaborative management of cancer-related persistent and breakthrough pain. Presentations will address assessment and differential diagnosis of transient cancer pain episodes, treatment strategies for various breakthrough pain subtypes, Risk Evaluation and Mitigation Strategies for prescription opioids, and patient education and monitoring to promote safe opioid use. The live program will also be recorded and edited into a 60-minute online Webcast. The enduring activity will be distributed via a multichannel network, including Oncology Nurse Advisor, myCME.com, and ExchangeCME.com. The overall goal of the educational activity is to improve the management of cancer-related pain. | 18,420 | 10000.000 | 10,000 | 3/27/2014 | This one-day course is geared towards primary care providers and specialists who on a daily basis confront the challenge of treating acute and chronic pain. This course explores assessment, treatment, and management options to help physicians determine the right solution for patients with acute and chronic pain. Presentations by leading international experts from the clinical arena, basic science, and journalism will examine the evidence for new diagnostic tools for chronic pain, the analgesic benefit for different therapeutic classes ranging from oral to intrathecal agents to neuromodulation, the neurobiology of pain and migraine, and the evidence for using these therapies in clinical practice. The role of non-pharmacologic therapies in the management of pain.                            | 4/5/2014  | 4/5/2014  | Live | Symposium | Breakthrough Pain       | Pain | General                   | University of Rochester School of Med & Dentistry | NY | 2/21/2014 | University of Rochester | Nisha | Johar | Center for Experiential Learning | Rochester | NY | (585) 275-4392 |
