Subject: FYI Safeway (154132) -

Good Afternoon Sabrina,

Safeway # 154132 is looking to order about 4 bottles of generic Percocet 7.5/325mg. However, it seems that they are blocked in the system. I have checked other Safeway accounts and there is a control limit of 5000 for Oxycodones and "0" for this specific account. Is it possible to have their limits increased?

Thank You,

Shaeen Suraj-Persad

Looks like the form was sent back due to limits. Let me know how much they need and I will get compliance to increase it.

Good afternoon, Liz

Just received an inbound call from Nora, at Safeway #691 (154132)
She has an issue with CII form that was returned. And on the return, was a note " Order Blocked, account was set-up in error"

She was concerned, cause she has order CII's in the past. Can you please investigate as to what " Order Blocked, account was set-up in error" does it mean?
