Subject: Re: Perrysburg CIII-CV - follow up

FYI: Slight change in plans. Cardinal has red flagged 367 stores that were serviced out of Perryburg and won't be able to service them. Due to this change there was a decision made that Perrysburg will continue to pick CII past 3/1. We need to work out the details on this and will get you an update asap.

From: vinayak.pandit@walgreens.com
When: 8:00 AM - 8:30 AM February 27, 2013
Subject: Perrysburg CIII-CV - follow up
Location: 866-309-0558 *8479148354*

Please invite anyone I may have missed.

- C2:
- Perrysburg will continue to pick what they can until the DEA comes and shuts them down.
 - If and when the DEA comes Perrysburg is going to let ISE know and we will move all the C2 product in reserve for transfer.
 - **Updates 2/20:**
 - Bill Groth confirmed Perrysburg will stop shipping C2 starting 3/1.
 - The DC has roughly \$30M in C2 inventory which should be down to minimal \$s by next Friday.
 - If a transfer is needed from Perrysburg to Woodland. **Rx Purchasing** will need to create a 222 form for the transfer as was done when we moved inventory from Jupiter.
 - Majority of the volume will be handled by Cardinal and the remaining will be spread across wholesalers – details being determined.
 - IT is working on a program change to convert store orders to EDI 850 format. This will take 3-4 weeks to complete.
 - PDQ ordering: The plan is to continue to allow PDQ ordering for stores even when they are being serviced by the wholesalers.
 - No additional lead time needs to be added to the ordering while the wholesalers are servicing the stores.

HIGHLY CONFIDENTIAL

P-14766 _ 00001

C3-C5:

- Perrysburg will make all the quantity unavailable.
- For orders today 2/18 – ISE and Perrysburg team will follow the same process that we followed over the weekend to manually redirect orders to Mt Vernon, Lehigh and Windsor.
- ISE is making a program change to redirect C3-5 orders based on the patterns regardless of available quantity in Perrysburg.
- Mark/Doug's team reconfirming that the patterns are correctly entered and have made it to the DC.
- **Updates 2/20:**
- **Tammy** is working on exact inventory counts that need to be on transfers and will get this information to Mark/Doug/Vinayak.
- **Mark's** team will put in the reserve to transfer and actual transfer orders for the FC/SC quantities.
- All inventory will be sent to Mt Vernon.

PSE:

- Perrysburg is scheduled to receive \$491,944 PSE inventory over this week. They will continue to pick PSE items this week as much as they can to bleed the inventory down.
- Thu. 2/21 we will need to create transfers for the Full case and split case quantities as needed to go to Mt Vernon, Lehigh and Windsor. Mark/Ashley's team will take care of getting the transfers into the system.
- **Updates 2/20:**
- **Tammy** is working on exact inventory counts that need to be on transfers and will get this information to Mark/Doug/Vinayak.
- **Mark's** team will put in the reserve to transfer and actual transfer orders for FC/SC quantities.
- Inventory will be transferred to Mt Vernon, Lehigh and Windsor – this may change based on the amount of inventory that needs to be transferred.
