Subject: Re: Fw: Acct 127978

I actually left a message for Norman a little bit ago on his cell phone. The forms he sent aren't large orders for the VA like we had discussed. Most of the quantities are going to doctors that appear to be either private practice or pain clinics.

Definitely does not help the idea of raising his limits. Hospital or institutional use is one thing. This appears to be something else.

Re: Fw: Acct 127978

Thanks guys...Bruce wanted to stress that when and if the increase occurs, he will need to order a larger qty. then usual to bring him back up to speed initially since he has been denied for a few weeks. The subsequent months would then be at his current average usage levels. I am just passing along his concern.

Thank you,

Patrick,

Any news on the increase for this customer.

Thanks,

Norman,

Are you out of the office? If so when are you coming back? Hopefully you get your emails...I need to talk to you about DSI 127978 (Bruce). He is getting desperate for the increase. Please let me know what's going on.

Thank you,
