Mike,

Here is the list of customers from Bryant Ranch. Top products to follow with usage.

I will move the Hydrocodone for now. I'd like more information on the other three families. In a previous email Seth said he provide anything we need. Please have him send sales information for the other three CII families and a listing of all his customers as well. Make sure they understand we DO NOT sell controlled substances to any physicians in the entire US.

Thanks
Mike
