Attachments: All Teva Companies and Product ANDA numbers.xlsx

Attached is the compiled list. First tab shows an alphabetical listing of all companies shown in the list from FDA along with the Product count. The second tab shows the same company names and all products under that name. I highlighted in yellow the company information that still needed to be researched on whether or not they are products that are to be counted in this list.

There are two Teva Parenteral Medicines in the list (written slightly different) so they are shown both times.

Please let me know if you have any questions.

Brenda,

I provided the names of legacy Actavis/Watson companies on this list; however, the products referenced for Abraxis, Alpharma (s) and Purepac are not current inactive/active products. For the Alpharma listed products, I do have reference on 2 that they were withdrawn, however I do not have a copy of the ANDA Withdrawal Requests or FDA Acknowledgements. For the other Alpharma products, Abraxis and Purepac referenced products, I do not have any information on. I did try searching the FR for withdrawal notices, but no luck.

Please be advised that Natco is not a legacy Actavis/Watson company; however, Actavis is the US Agent for a Natco product.

I have no reference to the ANDAs referenced for Warner Chilcott as generic products.

Regarding the product referenced for Watson Laboratories – Florida - the ANDA RA responsibility was transferred to Parsippany in 2011, but an Ownership Transfer was never done. This Company **WATSON LABORATORIES INC FLORIDA** should have been included on my list.

Regarding **WATSON PHARMACEUTICALS INC** – this company should have been included on my list.

Thank you,
Carla

Thank you, Carla.

Comparing the list of legacy Actavis companies in the Annual Report tracker, I do not have any products associated with those company names and therefore, didn't know of the companies, ABRAXIS, ALPHARMA (2), and PUREPAC PHARMA. (Maybe I could get a product list if available.) Additionally, there are company names in the AR tracker with associated products and they aren't on Carla's list. See side-by-side comparison with notes.

Please let me know if you have any questions. All other company names in the Teva list coincide with the list from

the FDA.

Scott-
Brenda has been working on the combined AR tracker (approved Teva and Actavis applications). We can provide a list of the ANDA holders from the tracker. She's in the QC phase now, and we should be able to provide this the first week of January.

Lisa

Importance: High

Ahead of this meeting it will be important to have one combined list with all applicants and affiliates. I recall discussing this on the last call in November.

Lisa, can you share the list for legacy Teva
Carla, can you share the list for legacy Actavis
