I think that's probably a good idea. TDGFD comments are only supposed to be for one script each time, so technically other than ID info that may be in the comments, other info could be purged.

Tasha,

I wanted to reach out to you about your thoughts on the GFD comments. The comments section is getting full for many patients and requiring the deletion of comments (not just GFD but other comments as well). Especially in the Florida area where the TD-GFD has been going on so long, is it OK to give direction around purging of old GFD comments? I wanted to run this past you before anything was done.
