**Subject:** Fwd: Good Faith Dispensing - High Risk Products Discussion

Hi Kristie,

I'm actually in this meeting with Mike , et al.

Thanks,

Ed

Let us know how we can help. I am copying Ed Svihra on this as well. I think there is manageable list that we can create.

Ok - need your recommendation on the top drugs that we would elevate GFD on - pt may need to wait up to 24 hours, mandatory PDMP, mandatory ID check with full documentation.

The list would need to be manageable - probably oxy's, hydromorphone (not 30 or 40 drugs), etc.....just some early thoughts...

Idea is to put teeth around GFD for high risk products...

HIGHLY CONFIDENTIAL

WAGMDL01109078

P-20799 \_ 00001

Sorry Mike- Barb and I are at an all day DEA seminar today. I can catch up with you tomorrow to discuss what my team can do for you.

Thank you,

Denman Murray
