**Attachments:** Oxymorphone WK Sales TREND 2-2012.xlsx

Team,

I have attached a spreadsheet which details prescription and sales trend of Oxymorphone through February (the latest month available). I'm happy to report that we are gaining great traction on this product.

Highlights:

- Prescriptions have reached 50% of where they were prior to the discontinuation of Opana ER 7.5mg and 15mg!
- 37.2% jump in prescriptions in February. This is most likely due to a couple of factors:
  - Continued promotion by Actavis (direct mail/ email programs); and the help of the KADIAN sales team promoting awareness among physicians.
  - The reported Opana ER shortage driving switch to generic

If the current trend continues we may be able to build sales to the share that the brand held prior to launch. This represents a great opportunity for Actavis!

Best regards,

David
