Paul,

No. He will have to live without them right now. He didn't know he was getting them in the first place.

Thanks for your help,

Thomas C. Mollick

Gentlemen,

Iv just entered this as a "RUSH", & it will be sent 2-day today:). I just wanted to give you a "Heads Up" that po168 came up backordered. Due to the fact that this was entered as a "RUSH", it will NOT be released when it comes back in. Would you like to replace this item, or have me re-submit as a regular order?

Thanks,

Paul

Hands full is an understatement. Sorry I am just getting to this.

Paul,

Please make this a priority and send the requested items as noted. Thanks.

Subject: Port St. Lucie Walgreens DM Request

Tony,

Port St. Lucie, FL is an identified top 10 hot spot for abuse and diversion. I contacted the DM at Walgreen's in this area, Richard Ashworth, because of inadequate stocking of OxyContin in this area. He informed me that a few pharmacists were afraid to stock and dispense OxyContin because of theft. He also informed me that OxyContin is one of the most highly profitable items to dispense and did not want to miss out on any sales because of fear of theft or suspicion of diversion.

Richard Ashworth would like to personally educate and mandate completion of our CE program by Lipman; on "The Use of Opioids in Chronic Pain," at his next biweekly meeting or as soon as we can get the literature to him. He supervises 30 pharmacists in his territory.

Rich Denyer and I agreed to work together on this and support Richard Ashworth with any reasonable request.

Therefore, I am requesting that you approve the following material and quantities for immediate delivery to: (overnight is not necessary)

Richard Ashworth
901 North Point Park
Suite 105
West Palm Beach, FL 33407

1. OMC113 qty 30
2. OPO24 qty 1box of 100 pens
3. OPO168 qty 300
4. OPO175 qty 30

Thanks for help with this matter,
