The content of this activity was planned to be balanced, objective, and scientifically rigorous. Occasionally, authors may express opinions that represent their own viewpoints. Conclusions drawn by participants should be derived from objective analysis of scientific data.

Power-Pak C.E.TM is approved by the American Council on Pharmaceutical Education as a provider of continuing pharmaceutical education.

The author, sponsor, and publisher of this continuing education program have made all reasonable efforts to assure that all information contained herein is accurate in accordance with the latest available scientific knowledge at the time of acceptance for publication. However, because information regarding drugs (their administration, dosages, contraindications, adverse reactions, interactions, special warnings, precautions, etc.) is subject to constant change, the reader is advised to check the manufacturer's package insert for information concerning recommended dosages and potential problems and cautions prior to dispensing or administering the drug. Special precautions should be taken when a drug is new, or highly toxic, or is unfamiliar to the dispenser or administrant. This educational activity may contain discussion of published and/or investigational uses of agents that are not approved by the FDA.
