Jackie and David,

I'd like to first thank the both of you for keeping an eye out for matters of compliance. When this email was brought to my attention I talked with Eric Siegel and forwarded a copy of the email to him. We both agreed that no compliance violation has occurred as Rachel states only Dr. Robinson's desire to become an Actiq speaker. Although Rachel does provide details about the physician's specialty and training, she does not speculate as to how this will impact her ability as a speaker.

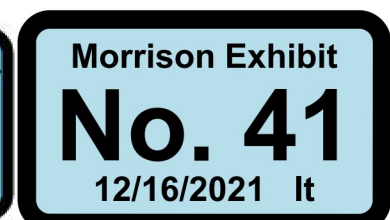

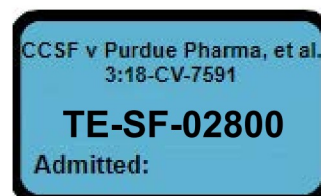

As with any prospective speaker, make sure that Dr. Robinson is well trained on the approved Actiq slide kit and the RMP. Please don't hesitate to give me a call if you have any further questions.

Regards,

Chandler

Jackie,

Read the original email. I am afraid of the non indicated terms that are used. Please call me.

Hi David,

Here is a nominee for Seattle. I will be meeting with her next week, let me know if you want me to go over the AMRP with her. We would like to get her up and running as soon as possible, due to the fact that there are not many local speakers in Seattle.

Thanks

Hope all is well.

Jackie Morrison

Subject: Speaker Interest

Hi Jackie:

Dr Elena Robinson is interested in becoming a speaker on behalf of Cephalon on Actiq. She is a well respected thought leader in the community. Dr. Robinson is a neurologist who has a special interest and experience in treatment of headaches and neuropathic pain. She received her medical degree and completed residency in Neurology and fellowship in Pain Management at the University of Washington. During her training, she participated in research and gained experience in headache management working at hospitals in London, England; and St. Petersburg, Russia. Dr. Robinson performs diagnostic and therapeutic procedures for treatment of chronic pain problems.
