**Subject:** Pharmacist POWER Schedules  
**Attachments:** RPhTrainingSchedule\_v12\_09052012.xlsx; RPhTrainingSchedule\_POWER\_v2\_090512.xlsx

Hello,

I attached the updated Pharmacist POWER schedules (and the non-POWER version for reference). Due to the job aids, there was less time available for on-the-job practice, which was also the case for Technicians.

I highlighted the first Data Review and Verification OJT. Please review this time to make sure this is enough practice prior to moving on to Consultation OJT for 2 days. The non-POWER version allows 90 minutes at this point, which is proportionately a lot of additional time.

Note: I added 15 min OJT to all schedules for Roles, Responsibility, Workflow, and Intercom Plus system OJT as I needed to dedicate some time to these items on the checklist. You most likely have already noticed this on the Technician Guides.

**Please provide feedback by Wednesday, September 12<sup>th</sup>.**
