EION,

As you know, PIF purchased a passive stake in shares of Tesla on the market in April 2018 as part of our investment strategy to diversify away from oil and increase our investment in emerging technologies, including electronic vehicles. PIF remains interested in potential investment opportunities that are consistent with its investment strategy and the EV space is one of interest. We would like to explore investing in Tesla subject to being able to create a Tesla production hub in the Kingdom of Saudi Arabia that serves MENA, Europe, Asia and Africa with the right incentives on all fronts (subsidies on energy and land, tax exemptions, support in obtaining financing, etc). Therefore, as discussed, we would like our teams to start working together in a confidential manner to explore a potential transaction.

All the best,

Yasir
