**Subject:** Follow-up for Special Committee Counsel

Will call you tomorrow late morning with Dan to provide further context.

While being sensitive to section 203, we would like to seek formal permission to make the following calls to respond / engage potential interested / existing investors :

- Saudi Arabia
- UAE
- ten cent
- google
- Ron Barron
- Silver Lake affiliates ( [REDACTED] )

No confidential information will be shared. No solicitation will be made other than testing their interest to participate in the Tesla going private initiative led by Elon.

Goldman and silver Lake will make the calls. Not Elon.

We do realize this process step is a bit unusual considering they have not engaged a financial advisor at this stage. However speed is our collective highest priority and this will help accelerate development of a fully financed proposal.
